SCOPE

Just the face. Everything else stays.

STAYS THE SAME

- ✓ Expression, eye line and lip movement
- ✓ Top hat, vest, shirt and room
- ✓ Warm tungsten light and low camera angle
- ✓ Clip length, timing and audio

BECOMES LINCOLN

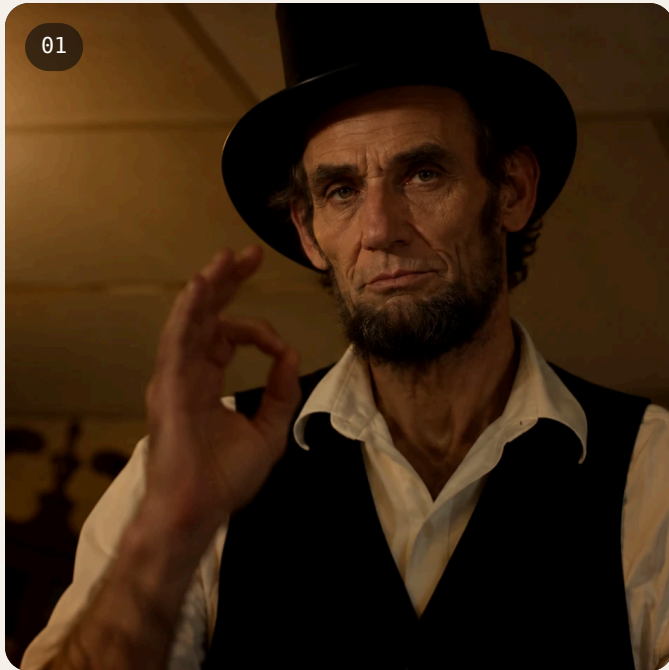

- Face shape, cheekbones and brow
- Skin, age lines and deep-set eyes
- Matched to every frame, including head turns
- Lit and graded to sit in your shot

One choice for you: the beard

Your actor wears a clip-on beard. I can keep it, or replace it with Lincoln's real chin beard (as in the target). Same price either way.

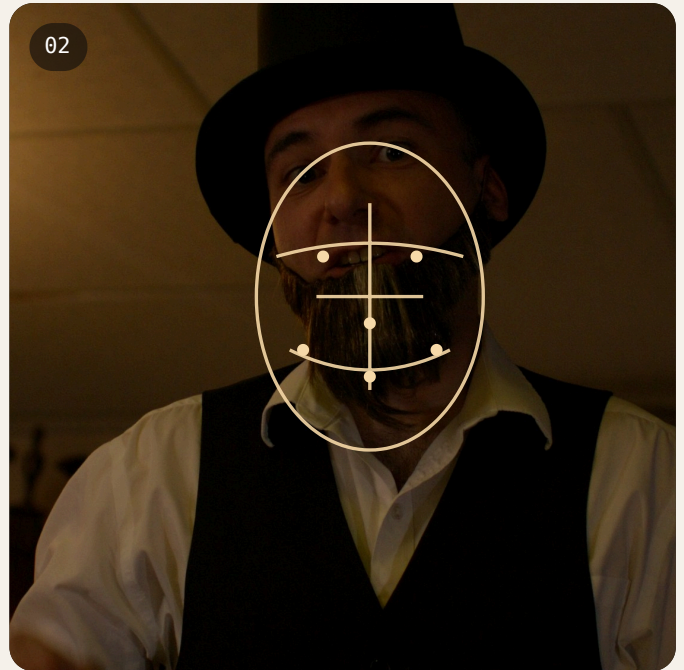

PROCESS

How each clip is made

Lincoln reference

One locked Lincoln likeness, used in every clip so he looks the same throughout.

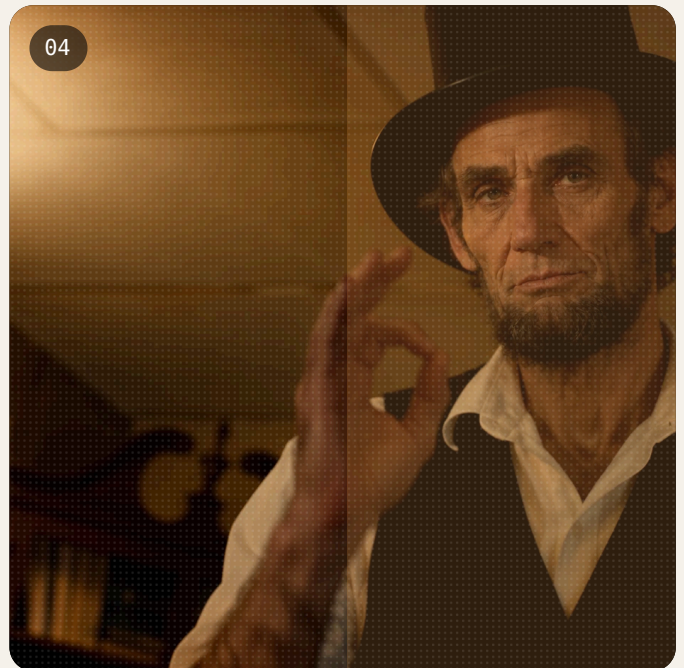

Track the face

Your actor's face is tracked frame by frame, so every expression and mouth movement carries over.

Swap and clean up

Lincoln's face goes on. Edges, the hat brim and hands passing in front of the face get fixed by hand.

Match and deliver

Colour, grain and sharpness matched to your camera, so the swap is invisible.

PRICE

Full project, bulk rate

Because you're doing the whole video, every clip gets 25% off.
